

## VERT 30 minute training sessions 2016

Vertual are pleased to announce a series of online training sessions run by VERT users for VERT users. The timetable for the sessions is below and all sessions are available for customers with a valid support license. Each trainer will deliver roughly 2-3 sessions. You will be notified of the times via email. To join the meeting you only need an internet connection and phone line or PC headset.

If you have any questions, require further information or would like to book please email [training@vertual.co.uk](mailto:training@vertual.co.uk)

Month	Session	Trainer
<b>February</b>	VERT 3.1 CPD Sessions - meet the creators	Angela Williams and Urvina Shah Mount Vernon Cancer Centre, UK
Speak to the creators of the CPD materials supplied in VERT 3.1. A tutorial on how to run the sessions, along with a Q+A about how to create similar VERT material in your department or educational institute.		
<b>April</b>	Teaching with VERT Physics	Rebecca Johnson London South Bank University, UK
Find out how Rebecca was able to implement VERT Physics into the curriculum and achieve a 100% pass rate for her students. Lesson will come with training materials and lesson plans.		
<b>June</b>	Creating Case Studies in VERT	Jim Godin College of Southern Nevada, USA
A walkthrough of the case study created at the College of Southern Nevada. The study takes one of the sample DICOM datasets and creates a simulated back story. Follow the patient from initial diagnosis all the way up to their Radiation Therapy treatment. A tool for student education.		
<b>September</b>	Using VERT to explain DiBH	Angela Williams and Urvina Shah Mount Vernon Cancer Centre, UK
A chance to see how VERT can be used to teach the concepts of DiBH, and how to create similar VERT material in your department or educational institute.		
<b>December</b>	Patient Information	Simon Jassel University Hospitals North Staffordshire, UK
An in depth look at how VERT has revolutionised patient information at UHNS.
