

Press release

Vertual's board chairman receives an MBE in recognition for his work with patients and our community.

January 13, 2020

Vertual Ltd, a UK based company, is delighted to congratulate the Chair of the Board of the company, David Haire, who has been awarded an MBE in the New Years Honours List for his work for patients and our community. David works for Hull and East Yorkshire hospital trust as a Project Director (Fundraising). The local NHS trust is a shareholder in Vertual, originally formed as a spin-off company from a joint research project involving Hull University and Hull University and Hull and East Yorkshire hospital trust.

About David Haire

After a career spanning more than 50 years, David Haire receives the MBE for services to patients and staff in East Yorkshire. David, Project Director (Fundraising) for the Trust, has been awarded the MBE for services to patients and staff in East Yorkshire. David has enjoyed a long and varied career since starting as an administrative trainee at Hull's Princess Royal Hospital in 1967.

David Haire was elected as Chair of Vertuals board on 25th April 2017 (having been a Director since 22nd October 2010). Congratulating David on his MBE, Vertual CEO Debra Leeves says: "I am delighted that David has been awarded an MBE, his steady chairmanship, and insights and wisdom is an asset to the company."

David's, well-deserved honour was awarded for his work in the NHS, Vertual also congratulates David and, recognises the importance of his strong leadership and guidance at an exciting time for the company. Vertual has commenced a phase of growth and expanding possibilities, including new ventures, new markets and, further development of key areas within the business. Having a team of talented and committed staff, including board members, will undoubtedly contribute to Vertual's continued success.

About Vertual Ltd

Vertual Ltd. is the leading provider of virtual reality training systems in radiation therapy and is located in Hull, UK.

Vertual was formed in 2007 by three founders as a spin-off company from a joint research project involving Hull University and Hull and East Yorkshire hospital trust. In 2008 the company embarked on a program to develop international markets for its products. VERT has since been adopted at over 150 centres in over 30 countries.
